

REMARKS

Applicant hereby requests amendment of claims 60 and 74; no other claims are affected. The amendment of claim 60 is merely to correct a typographical error in the claim as originally presented. This correction is self-evident upon reference to the relevant language of base claim 53.

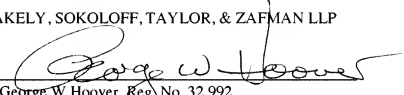

Amendment of claim 74 is requested to correct an error in the claim language resulting from miscommunication between the inventor and counsel. Applicant submits that changing the dependency of this claim and correcting the antecedent reference does not affect the patentability of the claim in view of the patentability of the underlying independent claim. Moreover, the intended meaning of claim 74 as clarified by the proposed amendment is evident from the specification, particularly paragraphs 0306-0339.

If it is determined that there are any issues preventing entry of the proposed amendment, Applicant respectfully requests that the Examiner and/or Supervisory Patent Examiner contact the undersigned by telephone.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR, & ZAFMAN LLP
